

A close-up photograph of a road surface. A large, irregular pothole is visible, filled with a thick, dark, black asphalt sealant. The sealant has a rough, textured appearance. The edges of the pothole show the underlying light-colored gravel and dirt. The background is a blurred view of the road extending into the distance.

# OUR PRODUCTS

Discover the advanced range of tire sealants by X-TREMESEAL, designed to provide superior protection and performance for your tires.

Our products are engineered to seal punctures and maintain tire integrity, ensuring a safe and smooth ride every time.

## THE X1 RANGE

**X1S** Everyday cars  
and bikes

**X1A** Ideal for Farm  
Vehicles

**X1Y** For Construction  
vehicles

**X1F** For Commercial  
trucking

**X1R** Designed for  
motorbikes

**X1B** For Military  
& Security

## **X1S** Everyday cars and bikes

Sealant X1S is an advanced tire protection solution featuring a self-sealing mechanism that autonomously repairs punctures up to 14mm in diameter, reducing downtime and enhancing vehicle efficiency. Its eco-friendly, non-toxic formula extends tire life and maintains structural integrity without compromising rubber elasticity or durability.

## **X1Y** For Construction vehicles

Sealant X1Y enhances tire performance with advanced cooling technology, reducing tire temperatures by up to 35% to prevent hot spots and rubber degradation. Its specialized compounds mimic natural rubber, maintaining tire flexibility and resilience under harsh conditions for longer-lasting durability. Additionally, X1Y forms a protective internal layer that retains tire

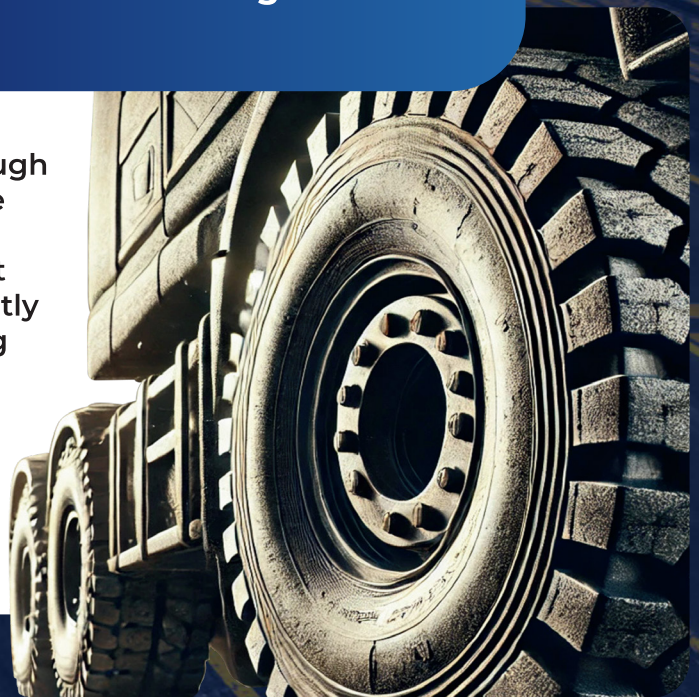

## **X1A** Ideal for Farm Vehicles

**Sealant X1A** is an eco-friendly tire solution that seals punctures up to 16mm instantly, reducing downtime, blowouts, and maintenance costs. It extends tread life by 39%, decreases sidewall wear by 42%, and cuts punctures by 89%, ensuring safer and more durable tires for uninterrupted farm operations.

## **X1F** For Commercial trucking

**Sealant X1F** is an eco-friendly, non-toxic tire sealant applied through the valve, offering lasting puncture protection for commercial trucks. Acting as a liquid rubber coating, it seals punctures up to 16mm instantly and permanently without affecting tire pressure. Installed in minutes, it keeps trucks moving by repairing punctures on the go, avoiding stops, tire changes, and security risks.

## **X1B** For Military & Security

Sealant X1B protects wheeled military vehicles from costly downtime and enhances operator safety in combat zones by sealing tires against small arms fire. Designed with tailored viscosity, it's compatible with a wide range of vehicles including ATVs, jeeps, trucks, bulldozers, personnel carriers, and armored vehicles, offering reliable, versatile tire protection in demanding conditions.

# WHY THE X1 RANGE?

X-TREMESEAL is at the forefront of tire sealant technology, offering innovative solutions for all your tire maintenance needs. With a commitment to quality and performance, we aim to provide drivers with reliable products that enhance safety and efficiency on the road.

Unlike traditional repair methods that rely on patches or plugs, the Sealant X1 Range bonds at a molecular level inside the puncture, becoming one with the tire's rubber.

It forms a seamless, permanent repair instantly—no plugs or patches needed. Beyond preventing punctures, Sealant X1 creates an effective air barrier, protects the tire casing with a built-in conditioner, cools tires by up to 25%, improves retread adhesion, and reduces the risk of blowouts, especially on front wheels.

## PRICING INFO

#Id	Name	Product Description	Weight	Price
1001	Sealant X1S	Sealant X1S is used for everyday cars and Bakkies	25L	R 7200
1002	Sealant X1A	Sealant X1A is used for your farm vehicles	25L	R 7200
1003	Sealant X1Y	Sealant X1Y is used for your construction vehicles	25L	R 7500
1004	Sealant X1F	Sealant X1F is used for commercial trucks	25L	R 7200
1005	Sealant X1R	Sealant X1R is used for your motorbikes	25L	R 6200
1006	Valve Kit	Used to remove the valve	1 Unit	R 37
1007	Pump	Specifically is used for x-treme seal products	1 Unit	R 2135
1008	Grease	Used to lubricate the pump	1 Unit	R 200

\*Bulk Pricing applies to quantities over 210L for that contact our agent.
